27 – 28		
29 – 30		
31 – 32		
TOTAL		

SECTION A:(40 Marks)

1. Work out: $24 + 52$

2. Simplify: $\frac{1}{2}(6y - 2x)$

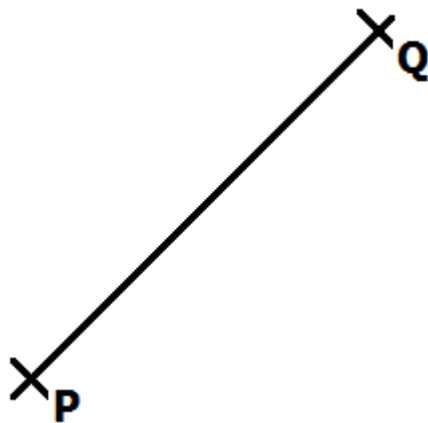

3. Draw beads to show number 3042 on the abacus below.

4. Given that $A = \{\text{multiples of 4 less than 15}\}$ Find the number of subsets in set A

5. Express 0.01962 in standard form

6. Using a pair of compasses, a ruler and a pencil only, construct a perpendicular bisector on the line below:

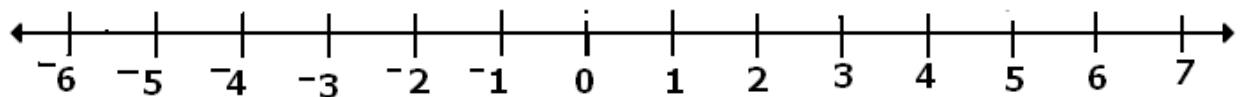

7. Find the next number in the series below 19,17,13,11,_____

8. Sr. Jane Francis had 60km still to cover after travelling $\frac{3}{4}$ of the journey. How long was the journey?

9. The average age of 3 teachers is 40 years. If one of the teachers is 50 years old. Find the average age of the other two remaining teachers.

10. Work out: $(6.5 \times 13) + (6.5 \times 17)$

11. Work out $-6 - 4$ using a number line below:

12. The factors of 20 and 24 are given below: $20 = 2 \times 2 \times 5$

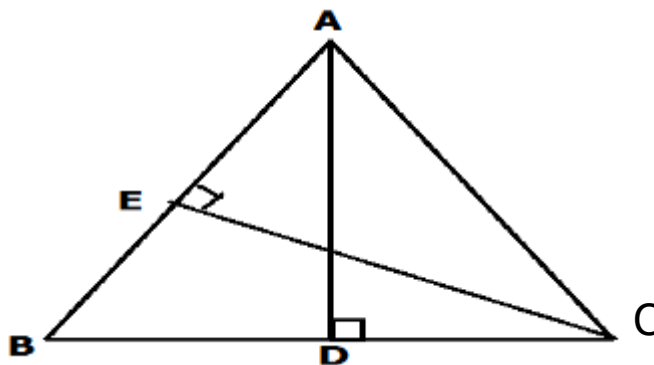

$$24 = 2 \times 2 \times 2 \times 3$$

Use the factors above to find the lowest common multiple of 20 and 24

13. Solve $3^{3p} \div 3^p = 3^6$

14. A minute hand of a clock makes $2\frac{1}{4}$ revolutions to cover the time of the science mock examination. If the examination starts at 11:45 a.m. At what time will it end?

15. In the Triangle below $AB=6\text{cm}$, $CE=4\text{cm}$ and $BC=8\text{cm}$. Study it carefully and answer the questions that follows.

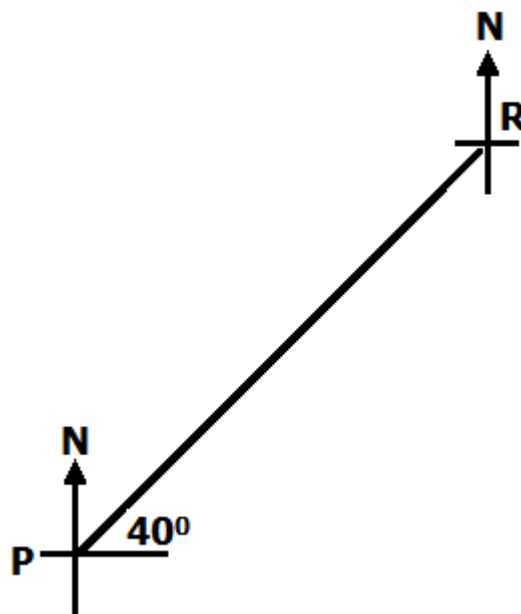

Find the length of AD

16. Express 7_{ten} to binary.

17. The town clerk borrowed sh. 200,000 from the bank to be returned after 4 months at a simplest interest rate of 10% per months. Find out the total amount of money the town clerk returned to the bank after 4 months.

18. The mass of a packet of Omo is $\frac{1}{2}$ kg. What is this in grams?

19. In the figure below, find the bearing of town P from town R

20. The perimeter of an equilateral triangle is 36cm. If one side is $(K+8)$ cm. Find the value of K.

SECTION B: (60 MARKS)

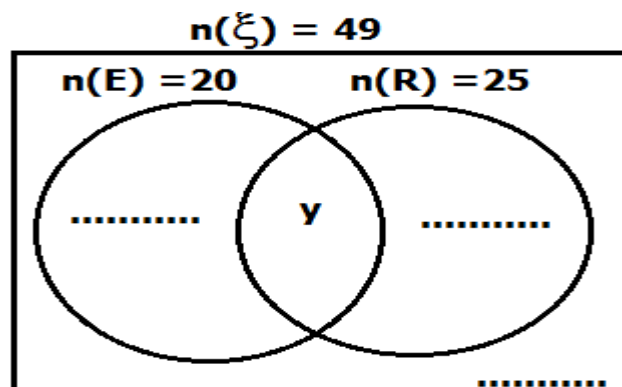

21. (a) Write CXCIX in Hindu Arabic numerals. **(2 marks)**

- (b) Round off 2024 to the nearest tens

(1 marks)

22. At the Teachers day celebrations held at Mayor's Garden in Entebbe, there were 49 guests, 20 guests addressed the people who attended the celebrations in English (E) 25 guests addressed the people in Kiswahili (K) Y guests addressed in both languages while 3y guests addressed in neither of the two languages.

- (a) Use the information given above to complete the Venn diagram. **(3 marks)**

(b) Find the value of y

(2 marks)

(c) How many guests addressed the people in neither English nor Kiswahili **(1 mark)**

23 The table below shows the number of goals scored by the she cranes in a series of netball matches.

Number of goals	1	2	3	4	5
Number of matches	3	4	1	y	2

(a) If the mean number of goals is 3, find the value of y
(2 marks)

(b) What is the modal number of goals?

(2 marks)

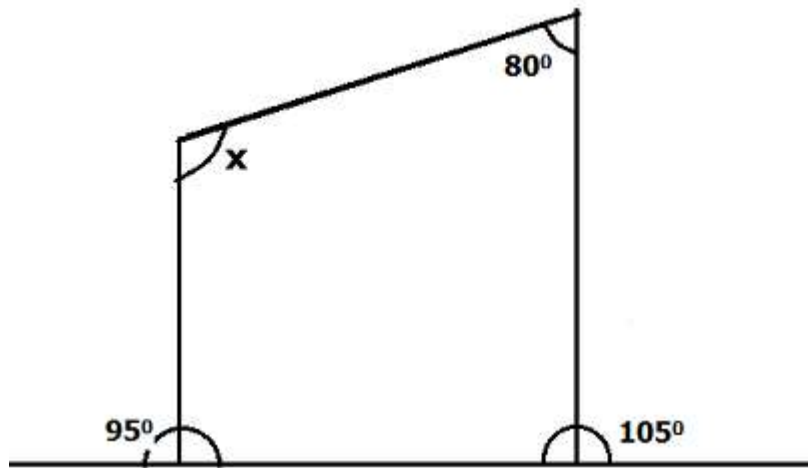

- (c) What is the probability that a team scored goals below the mean number of goals? **(2 marks)**

24. A farmer earns $\frac{2}{3}$ of his daily income by selling watermelons, $\frac{1}{5}$ by selling goats and the rest by selling timber.

- (a) If the farmer earns sh. 3,000,000 from timber, what is his daily income? **(3 marks)**

- (b) Arrange the decimals number below beginning with the largest and ending with the smallest. 0.25, 0.5, 0.2, 0.008 **(2 marks)**

25. (a) The figure below shows an irregular polygon. Calculate the size of angle x . **(2 marks)**

- (b) What is the size of the centre angle of a regular octagon? **(2 marks)**

26. **The time-table below is for the flight of bombardier Uganda airlines.**

Town / Airport	Arrival time	Departure time
Entebbe		0600 Hours
Cairo	0940 Hours	1015 Hours
Accra	1100 Hours	1130 Hours
London	1345 Hours	1400 Hours
Kigali	1600 Hours	

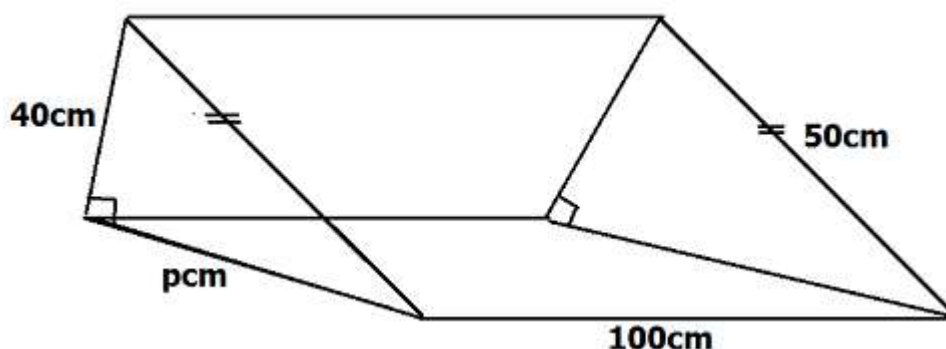

- (a) Express the arrival time of the Bombardier plane in London in a 12 hours clock system. **(2 marks)**

(b) How long did the plane take to reach Accra from Entebbe.
(2 marks)

(c) For how long did the plane rest in Cairo?
(2 marks)

(d) If a plane covered a distance of 1200km form Entebbe to Kigali, What was the plane's average speed for the whole journey?
(2 marks)

27. The solid figure below is a water tank in the shape of triangular prism.

(a) Find the value of p in cm.

(3 marks)

(b) Calculate the capacity of the above tank in litres.

(2 marks)

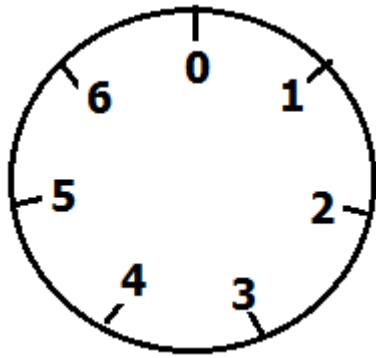

28(a) Given that $x=2y-1$. Find the value of y $x=5$

(2 marks)

(b) A teacher is 48 years old and his son is 17 years old. At what age will the teacher be twice as old as his son?

(2 marks)

- 29(a) Use a dial below to work out $4 - 5 =$ _____ (infinite 7)
(2 marks)

- (c) Today is Thursday 8th August, What day of the week will 9th October be in the same year?

(2 marks)

30. A forex Bureau buys one dollar at Ug sh. 3500 and sells one pound sterling at Ug sh. 4,000. Mr. Ndagga wants to exchange US dollars 3,000 to pound starlings.

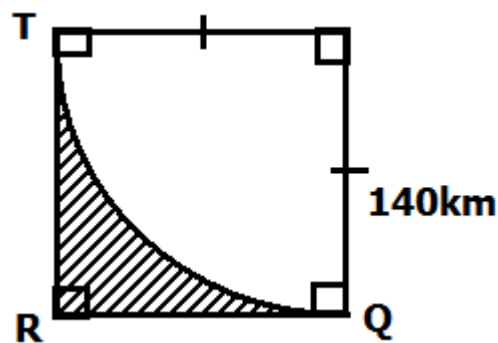

- (a) How many pounds sterling will he get?

(2 marks)

- (b) A school bursar withdrew money from Stanbic bank Entebbe. He was given new bank notes numbered consecutively from KM617501 to KM **617600**

How many bank notes were given to the school bursar? **(2 marks)**

31. The diagram below shows road TR intersecting road RQ at an angle of 90° at point R. The two roads are also connected to T and Q by arc-shaped road measuring a quarter a circle of 140km in radius. Study it carefully and answer the questions.

- (a) Find the distance by Ms. Lipa who drives through the arc- shaped road instead of driving straight TR and RQ. (Take $\pi = \frac{22}{7}$)

(3 marks)

(b) Find the area of the shaded part. **(1 marks)**

32(a). The table below shows four countries participated in Africa cup of nations (AFCON) and the points scored. Study it carefully and answer the questions that follow:

Country	Points scored
Egypt	9
Uganda	4
D.R. Congo	3
Zimbabwe	2

Draw an accurate circle graph to represent the above information in the table. (Use radius of 5cm)

(5marks)
