Questions **51** to **55** carry ten marks each

The word culture means the customs and beliefs of a particular country or group of people. It talks about the life of people and how they organize themselves. Culture not only looks at tribes or clans but also covers schools, communities, families and religious denominations.

In our societies or communities, people behave differently. This is because they have a certain way of doing things according to their culture. Some of the cultural practices used include; greetings, dressing, language, child rearing practices, circumcision, child naming, music and burial.

Besides all these, some communities have beliefs known as taboos. For example, in some cultures one is not allowed to eat chicken, one is not allowed to sweep at night, girls are not allowed to sit on a grinding stone and many others.

Customs and beliefs play a big role in our lives. They tell a particular group of people by looking at their behaviour. They promote good behavior, unity and cooperation among people. They shape people in a required way of doing things. They also tell the roles of boys and girls in different societies.

Culture can be promoted today in many different ways like music, dance, drama, sharing work, practicing traditional education, for example, teaching girls and boys their roles and respect cultural norms.
