LESSON 7: COMPREHENSION. A passage about animals.

Animals.

In our environment we have two groups of animals. The domestic and wild animals. Domestic animals are kept in our homes and they include cows, goats, hens, cats, dogs and many others. These animals are useful to us. Dogs guard our homes, cats chase rats in our houses, donkeys and horses are used for transport, cows provide us with milk, hens and ducks provide us with eggs and meat.

Wild animals are those found in bushes, forests and water bodies. Others are kept in zoos and game parks. They include lions, crocodiles, antelopes, monkeys, snakes and many others. Wild animals are tourist attraction. The

country gets money from the tourists. We also learn about these animals and
some provide us with meat.
Questions

COMPREHENSION. A passage about animals.

Animals.

In our environment we have two groups of animals. The domestic and wild animals. Domestic animals are kept in our homes and they include cows, goats, hens, cats, dogs and many others. These animals are useful to us. Dogs guard our homes, cats chase rats in our houses, donkeys and horses are used for transport, cows provide us with milk, hens and ducks provide us with eggs and meat.

Wild animals are those found in bushes, forests and water bodies. Others are kept in zoos and game parks. They include lions, crocodiles, antelopes, monkeys, snakes and many others. Wild animals are tourist attraction. The country gets money from the tourists. We also learn about these animals and some provide us with meat.

A passage about plants

Read the story and answer the questions in full sentences.

Plants

Plants are very important to people. Some plants are planted by people while others are natural. Plants which are not planted by people are called natural plants. These ones do not need much care from people but they need to be protected. Plants make our environment look beautiful and healthy. Plants in our gardens need care like weeding, watering, pruning and mulching them. Some plants are a source of food, medicine and shade. Big trees provide timber for furniture and firewood. A large group of plants help in the formation of rainfall.
