GEOGRAPHY  
PAPER 1**

**2hour 30Minutes**

**INSTRUCTIONS TO STUDENTS;**

- This paper consists of two sections A and B.
- All sections are compulsory.

**SECTION A**

**Item 1**

Study the photograph below and do the tasks that follow.

**Support material**

**Task.**

- (a) Draw a land sketch scape of the photography and show mark the main features.

(b) If you are staying in hilly areas, how does the photograph above help to overcome the problems associated with such areas?

---

---

---

---

---

---

---

---

## SECTION B

### Item 2

Assume Mufumbiro volcanic mountains erupted one week ago and you are the District Environmental Officer of Kisoro district preparing to receive visitors from the ministry of Disaster preparedness. These visitors would like to know why the eruption occurred and how it has affected the local communities.

### Support material

### Task.

Write a speech of about 400 words to be presented to the visitors.

-----

-----

-----

-----

-----

-----

-----

-----

-----

This image shows a full page of white paper with horizontal dashed black lines, typical of primary school handwriting practice paper. The lines are evenly spaced and run across the entire width of the page. There are no margins, text, or other markings present.

### Item 3

New sugar manufacturing industries have been established in Kakira, Lugazi, Bugiri, Kaliro and Mayuge in Uganda. These industries have contributed a lot to the development of these areas in a way that most youth have got jobs & there are other benefits from these industries. Imagine you are a native of one of these areas.

## Support material

**Task.**

(a) How are these industries beneficial to the community?

---

---

---

---

---

---

---

---

---

---

(b) Using the knowledge attained from the topic of climate change, show how these industries have contributed to climate change in those areas.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

(c) As a geographer, how would you control the effects of climate change in your community?

---

---

---

---

---

---

-----

-----

-----

**Item 4**

Study the table below showing the climate statistics of row x with equatorial climate in Uganda and do the tasks that follow.

| Month                 | J  | F  | M   | A   | M   | J   | J  | A  | S   | O   | N   | D  |
|-----------------------|----|----|-----|-----|-----|-----|----|----|-----|-----|-----|----|
| Temp( <sup>0</sup> C) | 22 | 23 | 24  | 24  | 23  | 22  | 21 | 22 | 23  | 24  | 23  | 22 |
| Rainfall (mm)         | 60 | 30 | 160 | 240 | 230 | 112 | 70 | 80 | 249 | 152 | 145 | 50 |

**Source:** Uganda National Metrological Authority-2015

**Task.**

(a) Draw a suitable diagram to show the information shown from the table.

Using a suitable diagram drawn, identify the months with the;

(i) Highest

-----

-----

(ii) Lowest amount of rainfall

-----

-----

(b) Giving reasons for your own answer, identify the type of climate of station X

-----

(c) With reference to the graph, outline the characteristics of the type of climate experienced by station X.

-----

-----

-----

-----

---

---

---

(d) If you were living in such an area, what economic activities would you carry out? Give reasons for your response.

[illegible]
