Item: 3

In most of their speeches presidents of African states condemn politicians who collaborate with western imperialists to disorganise their respective countries. African presidents believe that these politicians don't know how these imperialists oppressed them and exploited African states during the second half of the 19th century and first half of the 20th centuries. In order to popularise these dangers, African presidents through the African union have organised an essay writing competition and the winner takes a big prize of 100000 US Dollars.

Your school has chosen you to take part in these competitions and you feel you can win the money.
