*Write your answers in the spaces provided using **blue** or **black** ink.*

***No** additional sheets of writing paper are to be inserted in the booklet.*

*Work on additional sheets will **not** be scored.*

Item 1

Mr. Muyinda would like to grow Paddy rice in Mende subcounty. Paddy rice is well known to give yields when grown in water logged areas. He has two plots where he has picked soil samples A and B as presented to you.

Task

Carryout a scientific investigation on the samples provided and give a recommendation to Mr. Muyinda on which he should carry out his project.

[illegible]

Mr. Tumusiime deals in beef animal products for income of his home in Mitooma District. Recently, he travelled to the city and left instructions to his employees to slaughter the animal he left at home and get the products for sale. After 4 days, he returned home and found products C and D as presented to you

Observe each specimen and write a report to Mr. Tumusiime about the conditions of each specimen, what caused the conditions and recommend measures of how to control the conditions.
