wunnaeducationalservices.com

- a). Identify and explain the joint venture that was started by the women.
- b). Explain the characteristics of the joint venture named in (a) above.
- c). What principles should the women base on while operating the joint venture.

ITEM 2.

Mr. Mukasa is a dairy farmer who has decided to diversify her business by starting a milk processing plant. She has also started producing high quality cheese, butter and ghee using milk as a raw material. She owns an old vehicle which she plans to replace and buy a new one.

Task

- a). How has Alicia benefited from producing other related milk products.
- b). How can Alicia solve the challenges in the scenario?

ITEM 3

Mr. Waiswa wants to start a business with Ugx 500,000 on his piece of land near a swamp. However, he doesn't know the business he is supposed to start.

Task

As an entrepreneurship student, guide Mr. Waiswa on

- a). Selecting viable type of business
- b). Benefits associated with the viable business selected.
- c). Help him budget for his business.

ITEM 4.

Hozambe operates a welding business which produces metallic doors, windows and beds. He only sells his products to local people around his business and has inefficient delivery means. He also uses outdated marketing techniques for marketing his products.

Task

As an entrepreneurship student, help Mr. Hozambe to solve the challenges above.
